We just had to pay \$300 to fix the ice maker because of our water.

I did complete the proxy just in case.

I'm in the same boat! I'm changing my 2-3 month filter every 30 days but could change it every 2 wks. My filters look very similar, and I get them from Amazon for \$25. It's beyond ridiculous to have to pay this on top of the water bill. And yes, I've already submitted my proxy!

Just an update on our wonderful water system. The picture on the right is the filter system and the filter in it is about two weeks old. The one on the left is the one I took out 2 weeks ago. Last picture is a new one and the price. These are supposed to be 3 month filters but I am changing them out between 2 and 3 weeks. So not only do I pay my monthly bill but I have an extra \$60-80 a month changing out filters to try and keep my appliances and pipes clean. This water is unacceptable and has to be changed!
