No excuses. He was never notified. No notice posted. No advisory. Nothing from Davis until Thomas calls. Davis is President. He was ordered to set up website and website is to be our source of information. PWA also is able to send out emails. Nothing happened. Total irresponsibility. Total disregard to orders from Presley. Stand up for us just once PSC!!! This is the norm!!!! Not an exception!!!

Yikes. That looks like hot tea. No notice on web probably since Vicky not running interference between website and Davis □

Totally unacceptable. Davis is to contact owner.

Who cut the line? Why was there no notice ? Seems like someone is not using website as it's purpose is ordered by Presley in May. Oh well just another day in Punkin Water.

OK

I'm not trying to make excuses for anyone at all but it may take a while for the dirty water to work its way through his service line and plumbing in the home.

Mr. Davis just told me that a crew cut into a line causing the outage. He said that the line has been repaired and flushed. I don't have Mr. Petit's number to confirm this.

Thomas

Correct. He says he hasn't had water all day. He has been given your name and number to contact.

Mr. Petit has no water? Is that the issue?

Michael petit posted on Concerned Citizens:
I'm on cr 217 by the new subdivision that is being built.

Question. Is a PWA suppose to post broken lines and notification of no water? If so someone needs to tell Davis!
