MAY 30 2019  
MISS. PUBLIC SERVICE  
COMMISSION

**'18 -AD-036**

Dear Ms. Collier:

This is the May 2019 report required by the May 18, 2018, post-hearing Order in the above-referenced action.

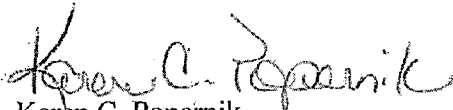

Punkin Water Association has now filed its Strategic Flushing Plan. The Project to replace the pipe on County Road 415 is nearing completion and meters are being connected to the new line.

As relates to the water capacity issue, Punkin Water has taken steps to get a revised agreement with the City of Oxford. Attorneys for both entities are in negotiation and we await appearance before the Oxford City Board of Aldermen and Mayor. If we get an agreement in place, we will plan to build a hook-up to the City of Oxford. The testing at the Deer Run site showed to be inadequate to make a real difference in the capacity issue.

The IRIS system is in place as a means of mass messaging by voicemail, texts, and e-mails to its members of important notices. It has been in place for several weeks now and Punkin Water is tweaking the system as necessary to better meets the needs of its customers.

Sincerely yours,

PUNKIN WATER ASSOCIATION

Karen C. Popernik  
VP, Punkin Water Association
