BEFORE THE MISSISSIPPI PUBLIC SERVICE COMMISSION

ENTERGY MISSISSIPPI, LLC IN RE: NOTICE OF INTENT OF ENTERGY
EC-123-0082-00 MISSISSIPPI, INC., TO IMPLEMENT A
2013-UN-178 STANDARD CHANGE IN RATES

NOTICE OF FILING

COMES NOW Entergy Mississippi, LLC (hereinafter referred to as "Entergy Mississippi," "EML," or the "Company"), pursuant to the Mississippi Public Service Commission's ("MPSC," or the "Commission") Public Utilities Rules of Practice and Procedure ("Procedural Rules") and Orders of this Commission, and hereby gives notice of the filing of its Annual Redetermination and Submittal under Energy Cost Recovery Rider Schedule ECR-4 (Revised) ("Schedule ECR-4 (Revised)" or "ECR-4 (Revised)") for the billing months February 2022 through January 2023, and would show as follows:

1. On October 15, 2013, the Commission approved Energy Cost Recovery Rider Schedule ECR-4 to modify the Company's fuel adjustment clause that provides for the recovery of EML's fuel and purchased energy costs. Included in the purchased energy costs are the net fuel and purchased energy costs associated with EML's membership in the Midcontinent Independent System Operator, Inc. ("MISO"), offset by any associated fuel and purchased energy revenues paid to EML under the MISO Tariff. The categories of aggregated costs and credits in the MISO Market Settlement that flow through Schedule ECR-4 (Revised) are Energy, Congestion, Losses, Uplift and Ancillaries.

2. The Net Energy Cost Factor to be applied for the twelve billing months beginning February 2022, as set out in the enclosed ATTACHMENT A, is \$(0.008816) per

kilowatt-hour, which is an increase from the current Net Energy Cost Factor of \$(0.019957) per kilowatt-hour.

3. Pursuant to the terms of Section 3.1 of Schedule ECR-4 (Revised), the redetermined Net Energy Cost Factor is calculated to reflect the deferred fuel balance as of September 30, 2021, for EML's fuel and purchased energy costs. As of September 30, 2021, Entergy Mississippi had a fuel under-recovery of \$80,618,892.

4. The redetermined Net Energy Cost Factor reflects an increase in the forecasted price of natural gas from the forecast that underlies the Net Energy Cost Factor currently being billed and an under-recovery of fuel costs associated with the February 2021 winter storm. In addition, projected purchased energy costs in this year's redetermination reflect an increase from the prior year forecast.

5. The estimated impact of the redetermined Net Energy Cost Factor on the monthly bill of a typical residential customer using 1,000 kWh is an increase of \$11.14 beginning with February 2022 bills. When taking into account the annual schedule filings (Schedules ECR, EE, GMR, MISO, PMR, RC, and UPC) that are being submitted to the Commission and the Mississippi Public Utilities Staff on November 5, 2021, the result is an increase in the monthly bill for a typical residential customer using 1,000 kWh of approximately \$7.65 per month.

6. In support of this filing, Entergy Mississippi also submits the Direct Testimony of Landon J. Eskew as ATTACHMENT B.

7. Entergy Mississippi expressly reserves all of its rights insofar as any order of the Commission or any court may result in confiscatory rates that constitute deprivation of property without due process of law and insofar as matters in this proceeding are within the

exclusive jurisdiction of the FERC, the Securities and Exchange Commission, or any other agency having jurisdiction over Entergy Mississippi. Entergy Mississippi's reservation of rights is based on all applicable constitutional provisions, statutes and rules of law.

WHEREFORE, PREMISES CONSIDERED, Entergy Mississippi prays that this Notice of Filing be received and filed; that this Commission consider the same as soon as reasonably practical; that after having fully considered the matter, this Commission enter an order finding that the redetermined Net Energy Cost Factor should be approved as set forth herein; and for such other, further, and general relief as the Commission deems necessary, useful, or appropriate.

This the 5th day of November, 2021.
